

Introducing our Corporate Card

The Corporate Card is a product exclusively introduced by Southern Cross Truck Rentals and is new to the rental and leasing industry.

The Corporate Card is designed as an incentive to companies who have large fleets or a significant amount of contracted drivers. The card when presented will give the bearer a significant discount equivalent of the rates given to major fleet companies. This allows the bearer to compete in what is a very competitive market.

Whilst the Corporate Card entitles the card holder to significant discounts, normal payment conditions apply. No rental will be placed onto account unless an established account exists for the person presenting the card.

Southern Cross Truck Rentals has for the past 2 years been visiting both existing and prospective customers and listening to the issues that are affecting their business. The Corporate Card is an exciting initiative which will go towards helping our customers profit by reduced rental rates for short term supply issues.

The card is loyalty based and is issued to customers who have qualified to receive the discount. The discounted rates are based on the volume of work referred by our customers. The more you use the Corporate Card the better rates we are able to supply.

Of course, there are conditions which must be applied to our cards.

These conditions are clearly outlined on our web page
